Calculator Decimals

1. Use your calculator to rename each fraction below as a decimal.

$\frac{1}{2}$	0	.	5																	
$\frac{1}{3}$	0	.	3	3	3	3	3	3												
$\frac{1}{4}$																				
$\frac{1}{5}$																				
$\frac{1}{6}$																				
$\frac{1}{7}$																				
$\frac{1}{8}$																				
$\frac{1}{9}$																				
$\frac{1}{10}$																				
$\frac{1}{11}$																				
$\frac{1}{12}$																				
$\frac{1}{13}$																				

$\frac{1}{14}$																				
$\frac{1}{15}$																				
$\frac{1}{16}$																				
$\frac{1}{17}$																				
$\frac{1}{18}$																				
$\frac{1}{19}$																				
$\frac{1}{20}$																				
$\frac{1}{21}$																				
$\frac{1}{22}$																				
$\frac{1}{23}$																				
$\frac{1}{24}$																				
$\frac{1}{25}$																				

2. Make up some of your own.

$\frac{1}{73}$	0	.	0	1	3	6	9	8													
$\frac{1}{1}$																					
$\frac{1}{1}$																					

$\frac{1}{1}$																					
$\frac{1}{1}$																					
$\frac{1}{1}$																					

Practice

3. $6\overline{)96} =$ _____

4. $91 / 5 =$ _____

5. _____ = $864 \div 8$

6. $575 \div 7 =$ _____
